

## NOT YOUR TYPICAL BOOK ABOUT THE ENVIRONMENT Discussion Guide

1. What are some choices you already make to help the environment? What are some new ones you could adopt?
2. What is fast fashion, and what are some alternatives to it? How can you make your closet more eco-friendly?
3. Think of some of your favourite foods – are they local? Why is eating local foods important?
4. What are some things we've learned about the oceans through using technology?
5. What is one-planet living, and why is it important?
